

The Yearbook of Sofia University "St. Kliment Ohridski" is a traditional periodical scientific organ of Sofia University, which is published annually, with individual faculties having their own series – both in electronic version and as a printed edition with ISSN in a unified design approved by the University Press.

Founded in 1904, in the 16th year after the opening of the University itself in 1888 as the first higher education institution in Bulgaria, the Yearbook of Sofia University "St. Kliment Ohridski" is the oldest Bulgarian scientific journal.

The Yearbook of the Sofia University "St. Kliment Kliment" is the oldest and the most important journal of the University. Kliment Ohridski", FNOI, has undergone various transformations due to faculty name changes. It is a continuation of the Yearbook of the Sofia University "St. Kliment Kliment". Kliment Ohridski", Faculty of Primary and Preschool Pedagogy with ISSN 0861-8216 (print), published between 1993-2018, which in turn is a continuation of the Yearbook of Sofia University "St. Kliment Ohridski", Faculty of Primary and Preschool Pedagogy with ISSN 0861-8216 (print), published between 1993-2018. From 2020, the Yearbook of the Faculty of Pedagogical Sciences is divided into two - the book Pedagogical Sciences and the book Arts.

The Yearbook publishes original research studies that the author declares have not been published elsewhere, including under another title.

In accordance with the decisions adopted by the Academic Council of Sofia University in 2020, the Yearbook of Sofia University "St. Kliment Ohridski", FESA, Annual of Arts, is switching to external peer review with anonymous reviewers.

In addition to the above, the studies published in the Annual of arts are between 41,000-45,000 characters with spaces and are mainly in the fields of music (performance art, music criticism, music history, musicology, acoustics, music analysis) and visual arts.

The published materials contain an abstract, keywords and brief information about the authors in English.

#### Languages of Scientific Studies

It is recommended that the scientific materials are in Bulgarian and English, but are also accepted in German, French, Italian, Spanish, Dutch and Russian – necessarily with an abstract and keywords not only in the above languages, but also in English.
